

Recommendation Letter

for
Mr. George Christoforidis

June 11, 2010

(This is a letter of recommendation for Mr. George Christoforidis to support his application for internship.)

To the M.Sc. evaluation committee of The University of Glasgow,

Mr Christoforidis has successfully attended my courses at Technological Institute of Kavala, Department of Industrial Informatics. More specifically, he has attended the following courses:

Course	Score	Rank
Algorithms & data structures	8,0	1 st in 100
Operating Systems and System Programming	9,5	1 st in 100
Parallel & distributed systems	8,5	1 st in 100

His overall rank is in the top 5 percent of student's taught.

We have also cooperated towards the preparation of his diploma thesis entitled "*Modeling, management and control of industrial manufacturing systems using intelligent agents*".

I have been impressed by his ability to work hard, independently and effectively for the achievement of their goals.

Moreover, Mr Christoforidis is a dependable, intelligent and mature individual. He is also ambitious and eager to enhance his education by pursuing graduate studies.

I strongly support his effort to pursue a master degree in a demanding and competitive environment and I highly recommend him, without any reservation.

Sincerely,
St. E. Papadakis
